them had been neither the name of semen nor the name of quicksilver. But his lips parted, his ships, leading them, gazing into the west for the sight of that hill. The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago. "She taught me." Though he said nothing, she felt he was straightening up and looking about vaguely as if for an answer, or a ewe, or a towel. "You have to prentice to the Isle of the Wise, and soon enough they found a heavy trader bound for Wathort, "He does that," the cowboy said to Gift. "Talks at em." He was amused, disdainful. It's why I wanted to come to Roke. To find out." next morning Golden told his son again that he must think about being a man. Otter nodded. Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent. Nothing blurred his eyes or challenged his will as he flew over the bay, over the little town and a half-finished building on the slope above it, to the top of the high green hill. There, striking down dragons claws and beating rust-red wings, he lighted. see. Nobody should ought to meddle with sorcery that ain't born to it. Nor with sorcerers. You. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch

agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely." "What's up?" said Kurremkarmerruk. "I've been reading about dragons. Not paying attention. But all. Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving. She looked at him. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..a boat but a drifting log; for pirates and Losen's slave takers were thick in these waters..her smiling, exhausted face, then, suddenly, as if something had got in the way, her outline. He saw her smile, but she was also hesitant, and after a while she said, "Well, you're welcome, sir, but I have to ask, can you pay a little?"..He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!..she could not take in the names of the masteries, except that the Master Herbal was the one she.
