She looked back without stopping. "If you like. I'd like having someone besides myself to talk to. Kiss me good-by, Gordy." And come he did, neither silently nor slow, but with loud purposeful steps. He stood for a moment at the clearing's edge, looking at Hinda, measuring her with his eyes. Then he laughed and crossed to her. Three weeks later, the Tharsis Canyon had been transformed into a child's garden of toys. Crawford had thought of no better way to describe it. Each of the plastic spikes had blossomed into a fanciful windmill, no two of them just alike. There were tiny ones, with the vanes parallel to the ground and no more than ten centimeters tall. There were derricks of spidery plastic struts that would not have looked too out of place on a Kansas farm. Some of them were five meters high. They came in all colors and many configurations, but all had vanes covered with a transparent film like cellophane, and all were spinning into colorful blurs in the stiff Martian breeze. Crawford thought of an industrial park built by gnomes. He could almost see them trudging through the spinning wheels. whatever it is, would photograph, he would become a star overnight, whether he could act or not. Except. often enough. We've only been out a week, but it seems twice that long, with nothing to do but hang around. She went to her desk and returned a moment later with a second poem: drive back to the office and sign. You can move in today." She consulted the pad, but I'd bet my last gumshoe she knew every word on it by heart "A Mrs. Carmichael called. Her French poodle has been kidnaped. The grey man took the last piece of the mirror, went to the wall, and fitted it in place, saying, "The one thing I have always wanted more than anything else, for myself, for my nearest and dearest friend, is a woman worthy of a prince." "It's gonna be a hell of a concert tonight I know it" Jain had said mat and smiled at me when she came through here about ten. She'd swept down the center aisle in a flurry of feathers and shimmering red strips, leaving all the civilians stunned and quivering. There was one more capsule load due; after that, its presence would onl> be a frustration to both groups. There was a great deal of irony hi having two such powerful ships so close to each other and being so helpless to do anything concrete. It was telling on the crew of the Burroughs. "Most of them." In the brig he saw immediately that there was no jailor and then that there was no prisoner. Furious. When the ship finally did show up, it was no longer a NASA ship. It was sponsored by the fledgling International Space Agency. Its crew came from all over Earth. Its drive was new, too, and a lot better than the old one. As usual, war had given research a kick in the pants. Its mission was to take up the Martian exploration where the first expedition had left off and, incidentally, to recover the remains of the twenty

It is the year 2783. Man has reached out to settle thousands of planets scattered across the galaxy. Then, suddenly, the galaxy is invaded by a horde of alien beings, the Zorphs. They enslave all planets in their path. Those that resist are destroyed without mercy. You, as Captain of the Avenger, the great Terran warship, will range interstellar space, seeking out and destroying the forces of Zorph..I picked up Janice at her apartment in Westwood early Saturday morning. She was waiting for me. "But I'd have to become part of ... what Selene is." She pulled away from me, shaking her head. "That's unthinkable. I couldn't bear it. There's no other way but to go on as I am. So promise me, Matthew, promise that if you ever see Selene, you'll tell me. I have to know when she's stealing time." I got back in bed and pulled the sheet up to my waist, leaning beside her against the headboard. "I haven't the foggiest idea." This time Crawford was the last to know. "You know," Barry burst out in a sudden access of confessional bonhomie, "I feel confused most of the time." hard enough.. "That's what you meant, all right. And you meant women, available to the real colonists as a reason to live. I've heard it before. That's a male-oriented way to look at it, Crawford." She was regaining her stature as they watched, seeming to grow until she dominated the group with the intangible power that marks a leader.
