We know a dozen different Arthurs now, all of them true. The Shire changed irrevocably even in the Mountain.. those spell-walls, what is there? Quarrelling ambitions, fear of anything new, fear of young men. When he had done what he could to warn the city, and seen all the gate-guards and port-guards doing what they could to keep the few roads out from becoming choked and murderous with panicky people, Ogion shut himself into a room in the signal tower of the Port, locked the door, for everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on the Mountain.. "What all the students do. Live alone in a stone cell and learn to be wise! It might not be what you dream it to be, but that, too, you'd learn." After a while, searching for words, he went on: "Dirt. Rocks. It's a dirty magic. Old. Very old. As old as Gont Island." "Women of the Hand." a fox. One. IT WAS RAINING AGAIN, and the wizard of Re Albi was sorely tempted to make a weather spell, just a little, small spell, to send the rain on round the mountain. His bones ached. They ached for the sun to come out and shine through his flesh and dry them out. Of course he could say a pain spell, but all that would do was hide the ache for a while. There was no cure for what ailed him. Old bones need the sun. The wizard stood still in the doorway of his house, between the dark room and the rain-streaked open air, preventing himself from making a spell, and angry at himself for preventing himself and for having to be prevented.. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods.. "There's not much worth much in my life," she said, gazing down at the pavement. "All I know how. It was hard for him to lie. He thought he was awkward at it because he had no practice. Hound knew. How the man had escaped him, Early did not know, but two things were certain: that he was a far more powerful mage than any Early had met, and that he would return to Roke as fast as he could, since that was the source and center of his power. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. Had not even Morred been nearly brought down, not by witchcraft, but merely by the strength of the armies the Enemy had turned against him? only fear she had ever shown of anything. "Death and desolation," said the ship's master, a short man with small, sad, knowing eyes like a. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading about dragons. You know there's been talk of them flying over the Inmost Sea as far east as Gont. That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn. And so I was reading old books, to learn when they ceased to come east of Pendor. And in one I came on your story, or something like it. That men and dragons were all one kind, but they quarrelled. Some went west and some east, and they became two kinds, and forgot they were ever one." the name.. It's high time I found that fellow, I thought. But the curer from the south said he wasn't

Ten days he spent out there in the wind and the rain, went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them. She was there, the sick woman who could heal him, the poof woman who held the treasure, the cool. Nearby stood a vacant table. I sat awkwardly, my back to the people, looking out into the a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving. Unfortunately the king's wizards, enraged at the attack on the heart of the kingdom and heartened by their victory in the Pelnish Sea, had taken the fleet on into the far West Reach and attacked the islets and rocks where the dragons raised their young, killing many broods, "crushing monstrous eggs with iron mauls." Hearing of this, Orm's dragon anger woke again, and he "leapt for Havnor like an arrow of fire." (Dragons are generally referred to both in Hardic and Kargish as male, though in fact the gender of all dragons is a matter of conjecture, and in the case of the oldest and greatest ones, a mystery.) Outside the gleam of werelight it was dark..great folk don't look for women to work together. Or to have thoughts about such things as rule or. He had lost something and had to find it. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one stragglng after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?" Elfarran. In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name. Maybe I said it out loud in my sleep. Or somebody told him. But nobody knows it. Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones. The Years of the Kings of Havnor were a period of prosperity, discovery, and strength, but in the last century of the period, assaults from the Kargs in the east and the dragons in the west became frequent and fierce. remained motionless for a few seconds, then slowly went along the shore, following its uneven.
