The next night he was off to Partyland, a 23rd St. speakeasy that advertised heavily on late-night TV. As he approached the froth of electric lights cantilevered over the entrance, Barry could feel the middle of his body turning hollow with excitement, his throat and tongue getting tingly. Science fiction is a small country which for years has maintained a protective standards-tariff to encourage native manufactures. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in The Issue at Hand. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S.
