Dulse had the big lore-book open on the table. He had been trying to reweave one of the Acastan Spells, much broken and made powerless by the Emanations of Fundaur centuries ago. Their mother hid them in a root cellar of the farm and then used her spells to try to defend her husband and brothers, who would not hide but fought the raiders. They were butchered with their cattle. The house and barns were burnt. The little girls stayed in the root cellar that night and the nights after. Neighbors who came at last to bury the rotting bodies found the two children, silent, starving, armed with a mattock and a broken ploughshare, ready to defend the heaps of stones and earth they had piled over their dead..chest -- and his coat filled out and lit up again. . .trying to clean his legs. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land. He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said. It had been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there were people of the Hand in the Great Port. Though he had not known of them as a boy, he should know them now. Whatever art he studied came easy to him, too easy, so that he despised illusion, and weatherworking, and even healing, because they held no fear, no challenge to him. He saw no virtue in himself for his mastery of them. So, after the Archmage Nemmerle had given him his name, the boy set his will on the great and dangerous art of summoning. And he studied with the Master of that art for a long time. Without rancor. "He drinks because he drinks," she said. "With some, that's all it is. I'll be in the dairy, now. Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which wizards' spells were made, was the word tures. He had said it meant semen.
