He demanded obedience, but nothing else. Otter had seen slaves and their masters all his life in the shipyards of Havnor, and knew he was fortunate. At least in daylight, when Licky was his master..The Summoner, who had been standing with his back to them, facing the fireless hearth, turned.She stepped across the threshold of the Great House.."I've been coming doing business here some ten years," he said, looking Irioth up and down. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep..She came to the door and muttered some kind of greeting. They daunted her, these Masters of Roke, and also their presence meant that the peaceful time was over, the days of walking in the silent summer forest with the Patterner. That had come to an end last night. She knew it, but she did not want to know it.."But you're right, Herbal, we're out of balance," said Kurremkarmerruk, his voice hard and harsh.."Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be holy? Why do you think I don't have a staff? Why do you think I'm not at the School? "I don't know," Dragonfly said. "To hear about the Great House is wonderful, but I thought the Tuly shared it with him for a long time, since she could see her son only by lying to her husband. A school for wild boars, he thought, a college. Brown Bucca, his favorite, shook herself and said her name a few times. The others said nothing. "This is a great thing," I muttered. "Practice," Rose said, rather sourly. "I know." She flicked a pebble at Diamond. It turned into a butterfly in midair. He flicked a butterfly back at her, and the two flitted and flickered a moment before they fell back to earth as pebbles. Diamond and Rose had worked out several such variations on the old stone-hopping trick. By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the topmost vault the pure metal ran down into a stone trough or bowl-only a drop or two a day, he said, from the low-grade ores they were roasting now. around them, a few lights glimmering, pulsing, so that they were encircled now by an orange.
