Stella Vanilla? I've never learned exactly what her real last name is. Baird Searles is part owner of New York City's Science Fiction Shop and has been keeping track of the small and large screens for F&SF for many years. If you've ever been confused by the many different versions of some sf films, the article below will help sort things out. He redesigned the whole device, built a prototype and tested it, tore it down, redesigned, built another. It was Christmas before he was done. Once more he locked up the device and all his plans, drawings and notes. "Ah, yes. The India." Moises nodded. "She is gone, in her catamaran, up the river. Two, maybe three. 13. world? is one I find temperamentally unappealing. On the contrary. It's because I understand the today by a wizard so great and so old and so terrible that you and I need never worry about him. I." "Yeah, it ... takes my mind off my ... ah ... headache. Don't worry about it I have these spells all the." "What happened to you?" asked Jack, and Amos told him. charm to her loose topknot of copper hair and high-waisted Regency-style dress. "I'm not going to get out of your way, and I tell you, don't do it Not now and not later." she added softly, her dark eyes on his, "But come again in the morning." Nolan rose, stretching, then stepped out into the hall. The shadows were darker here and everything was still. splicing a rope in the stem, two others lowering a triangular sail between the foremast and the bowsprit. 3. A poem embodying several important long-range economic forecasts. Samuel R. (Chip) Delany has for some time been one of sf's most interesting novelists. "Okay," I said, but I wasn't entirely convinced. Why would anyone deliberately and brutally murder. Now I must get back to Zorphwar. Twenty more successful missions, and I move up to Sector. chatter of monkeys intermingled with the screeching of a milling mindless birds. summer. his big black trunk. He told us terrible stories of the places he intended to go. And you just up and went. In addition, endangered species could have their chances of survival increased if both males and females could be cloned over and over. When the number of individuals was sufficiently increased, sexual reproduction could be allowed to take over. nected with those operations. People become relevant only when those phases have been successfully completed. Therefore we can avoid all the difficulties inherent in the ~ idea of sending people along by dispensing with the conventional notions of interstellar travel and adopting. A totally new approach: by having the ship create the people after it gets there" ". Using an assumed name and a post office box number which was not his, Smith wrote to a commission agent in Boston with whom he had never had any previous dealings. He mailed the letter, with the agent's address covered by one of his labels on which he had typed a fictitious address. The label detached itself in transit; the letter was delivered. When the agent replied, Smith was watching and read the letter as a secretary typed it. The agent followed his instruction to mail his reply in an envelope without return address. The owner of the post office box turned it in marked "not here"; it went to the dead-letter office and was returned in due time, but meanwhile Smith had acknowledged the letter and had mailed, in the same way, a huge amount of cash. In subsequent letters he instructed the agent to take bids for components, plans for which he enclosed, from electronics manufacturers, for plastic casings from another, and for assembly and shipping from still another company. Through a second commission agent in New York, to whom he wrote hi the same way, he contracted for ten thousand copies of an instruction booklet in four colors. He crossed his legs like a Forties pin-up and dangled his Roman sandal. His lips twitched scornfully. and unclasping his fingers on the arm of the couch. bunks, and eventually as the silence stretched tighter, they all found themselves looking to Lang. Hinda could not answer. She could not even look at him. His nakedness shamed her more than his words. She put their food on the table and they ate their meal in silence. Then they slept like beasts and without dreams. Medusa. One look turned men to stone. Her locks of hair were live serpents. So they pushed the jewels back and leaned against the closet door till it closed. Then they returned to the map. "I have no idea. I only saw them in the hall a couple of times. Maurice and I were ... not close." He stood, fidgety. "There's really not anything I can tell you. Why don't you ask David and Murray. They and Maurice are... were thick as thieves." With rare exceptions. So Amos took off the prince's clothes and the sailor took them to the brig and returned with Amos'. She spun around as though to run away, then. A twig can be placed in the ground, where it may take root and grow, producing a complete organism of the kind of which it was once only a twig. Or the twig can be grafted to the branch of another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. It is because human beings first encountered this asexual form of reproduction, hi connection with fruit trees probably, that such a one-parent organism of non-sexual origin is called a "twig"; that is, "clone." ^Tomorrow I'm going back to Center St. and take the exam again." .read the letter as a secretary typed it. Barry smiled, at a loss. Only three months to go! His children had often asked him why a young man in his prime would turn his back on everything familiar and exchange twenty years of his life for a one-way journey to Alpha Centauri. They had good reason, since their futures had been decided more than a little by his decision. Most of the Mayflower II's thirty thousand occupants were used to being asked that question. Fallows usually replied that he had grown disillusioned by the spectacle of the world steadily rearming itself toward the same level of insanity that had preceded the devastation of much of North America and Europe and the end of the Soviet empire in the brief holocaust of 2021, and that he had left it all behind to seek a new start somewhere else. It was one of the standard answers, given as much for self-reassurance as anything else. But in his private moments Fallows knew that he really didn't believe it. He tried to pretend that he didn't remember the real reason. More reasonably, it could be argued that the clone of a great human being would retain his genetic equipment and, therefore, would be another great human being of the same kind. In that case, the chief use of cloning would be to reproduce genius. hung up about taking the last cookie on the plate." went around colliding with each other. longer dominated the colony. Lang worked them harder than ever, making up for the lost time. She sat down close to him and whispered into his ear, "If anyone, such as Freddy, for instance, Maurice Milian was still listed as 407.1 took the elevator to four and rang the bell of 409. "If it were daylight, I wonder could I see all the way to the Far Rainbow from here." "Not really polystyrene," Ralston interjected. "Cars are freedom. And so what all this talk about an energy crisis boils down to is?" He stopped. I nodded again, at the same time wondering how Amanda Gail could ever, really, consider herself alone. The acrimonious divorce of former Olympic runner Margot Randall and Senator Charles Christopher Gail had traumatically divided not only Amanda's childhood but her very psyche. Five years ago, when Margot Randall died hi a hovercraft accident and Amanda moved to Washington full-time, it emerged that for most of her childhood, Amanda Selene Gail had been two personalities, Amanda Gail and another calling herself Selene Randall. The revelation, and their decision to remain dissociated, had made them the darlings of the gossip columns. There was a special meeting tonight at the Union Hall. At it, the Organizer asked if everybody had read the minutes he'd distributed, and when everybody raised their hands, he asked did we want to take another strike vote. There was a big chorus of nays and not a single yea. That shows how Union brothers stick together when the chips are down.
