A pair of sheriff's deputies had taught him a painful lesson in "respect" in a cell at the town jailhouse, and the Army had been trying to teach him "respect" ever since. But that had been Earth-style respect. He was beginning to feel that perhaps he was learning the true meaning of the word for the first time. True respect could only be earned; it couldn't be extorted. A real leader led by the willingness of his followers, in the way that the people at the fusion complex followed Kath or Adam's children followed him, not by command. The Chironians could turn their backs on each other in the way that people like Howard Kalens would never know, as Colman could on his platoon. These were his kind of people. There was nothing more to say..Five minutes later the three Terrans rounded a comer and began following a footpath running beside a stream that would bring them to Adam's. They were deep in thought and had said little since bidding the painter farewell. After a short distance Jay slowed his pace and came to a halt, staring up at a group of tall Chironian trees standing on the far side of the stream alongside a number of familiar elms and maples that were evidently imported-genetically modified by the Kuan-yin's robots to grow in alien soft. The two sergeants waited, and after a few seconds followed Jay's gaze curiously..At that moment Sirocco turned back another flap; Col~ man saw Anita's

face inside the bag. It was white, like marble, and waxy. He swallowed and stared woodenly. The Chironian's eyes flickered briefly across his face. "Someone you knew?".her. The touch of her hand resting on his arm in the bar had been stimulating, and the faint whiff of perfume he had caught when she leaned forward to pick up her glass, tantalizing. In addition an area of ten square miles of mainly open land on the side away from Franklin was designated for future annexation and development. Transit rights through Phoenix were guaranteed for Chironians using the maglev between Franklin and the Mandel Peninsula, in return for which Phoenix claimed a right-of-way corridor to the shuttle base, which would be shared as a joint resource..As Leilani drew closer, Micky saw that she wore a complicated steel brace on her left leg, from the.Sometimes dear Mater came complete with a mess to clean up. He was. wearing an open necked shirt of intricately embroidered blues and grays, and plain navy blue slacks held up with a belt. His features looked vaguely Asiatic. With him were a young man and a girl, both apparently in their mid to late twenties and clad in white lab coats, and a younger couple who had brown skin and looked like teenagers. A six-foot-tall, humanoid robot of silvery metal stood nearby, a tiny black girl who might have been eight sitting on its massive shoulders. Her legs dangled around its neck and her arms clasped the top of its head.."I still don't understand the politics behind it all though," he said to the two Chironians who were accompanying him and Jay toward the cafeteria in the Administration Building in front of the main reactor site, where they were due to have lunch. One of them was a young Polynesian named Nanook, who worked with control instrumentation; the other was a slightly younger, pale-faced blonde called Juanita, who dealt with statistics and forecasts and seemed to be more involved with the economic side of the business. Kath herself had taken her leave earlier, explaining that she was expecting another party of visitors. Bernard spread his hands in an imploring gesture. "I mean... who owns the place? answered, but his voice was distant as he fitted the new piece~ into the picture in his head. He made a sign to Sirocco to get Swyley up to the front of the room, and to a chorus of groans Sirocco turned back and suspended the briefing once again.. "Will Kath fix it up for you?". wicks, a sound as faint as the memory of a long-ago serpent's hiss.. "She's coming down to the surface later this evening to pick up some papers and things from the house after it's dark. But she'll be under escort. We've worked out a plan, but it needs someone to get me into the house first, before they arrive, and to get her away afterward. Also I'll need a way of getting out of the shuttle base later-it's being closed off. You're the only person she'll trust. Can you get away inside the next hour, say?". Evidently he had been half-prepared for the news. "Borftein's been checking on that possibility," he said. "It'll be forty minutes before the Kuan-yin goes behind the rim. Stern won't launch before then.". Hanlon licked his lips while he tried to compress his hundred-and-one objections into a few words. "Ah, to be sure, but how could anything get done at all with an arrangement like that? Now, what's to stop some fella from deciding he's not going to do anything at all except lie around in the sun?". Lechat stared at her, but his mind still hadn't untangled the full implications. Beside him Colman's jaw clamped tight. "Somebody faked it to look like the Chironians did it," Colman grated.. "No you don't. At the top of the last escalator, Jay led the way toward a large' entrance set a short distance back from the main concourse. Above it was a sign that read: MANDEL BAY MERCHANDISE, FRANKLIN CENTER OUTLET. In the recessed area outside, a small crowd was listening appreciatively to a string quartet playing a piece that Bernard recognized 'as Beethoven. Suddenly, for a moment, Earth seemed less far away. Three of the Chironians--a Chinese-looking youth wearing a lime-green coat, a tall Negro with a small beard and wearing a dark jacket with shirt and necktie, and a blue-eyed, fair-haired, Caucasian in shirt-sleeves-recognized Jay, detached themselves from the audience, and came over. Jay introduced them as Chang, Rastus, and Murphy, which confused Bernard because Murphy was the Chinese, Chang the black, and Rastus the white. Bernard had some misgivings to start with, but they looked decent enough; and if they had been listening to Beethoven, he decided, they couldn't be too bad. He glanced over his shoulder instinctively before remembering that the Mayflower//was twenty thousand miles away, realized that he could afford to loosen up a little, and said, "I, er... "Sure, I'd cover that.". "What about Veronica?" she whispered.
