In the confusion of Otter's mind, he was only dimly aware that they were going now towards the frightened, and did not know what he was frightened of. The wizard, the power, the spell... It was. "Magic won't die on Roke," said Veil. "On Roke all spells are strong. So said Ath himself. And you. So that my mind could move about among the years and centuries without getting things all out of. The man whose name was Medra sat in the mud with the dead woman in his arms and wept. "He drinks because he drinks," she said. "With some, that's all it is. I'll be in the dairy, now. "But even if he's gone," she said, "surely some of the Masters are truly wise?". He pondered. All the time he was with Gelluk, he had tried to learn from him, tried to understand. "This is what you brought the Nine together for? This and no more?". the wizard, driven by his visions, forgot to guard himself-and if Otter could learn his name.. After a while, searching for words, he went on: "Dirt. Rocks. It's a dirty magic. Old. Very old. "Irian of Way, my lords," said the Doorkeeper. They were all silent. If he faced the wizard again he would be destroyed. And Roke with him. Roke and its children, and Elehal his love, and Veil, Crow, Dory, all of them, the fountain in the white courtyard, the tree by the fountain. Only the Grove would stand. The great scholar-mage Ath compiled a lore-book that brought together much scattered knowledge, particularly of the words of the Language of the Making. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not. It was not thinking anything much but speed and direction and the sweet taste of river water and the sweet power of swimming. But something like that is what Medra had been thinking as he sat at the table in his grandmother's house in End-lane, talking with his mother and sister, just before the door was flung open and the terrible shining figure stood there.. her clothes, and pulled them on, still swearing - "You coward wizard! We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control."
