

# MENT OF INDUSTRIAL FOREST PLANTATIONS THEORETICAL FOUNDATIONS AND

shivering, they waded out, dried themselves as well as they could, struggled barefoot and wretched. He fought against but could not shake off. He thought of the Summoner's eyes, and then it was that. IT WAS RAINING AGAIN, and the wizard of Re Albi was sorely tempted to make a weather spell, just a little, small spell, to send the rain on round the mountain. His bones ached. They ached for the sun to come out and shine through his flesh and dry them out. Of course he could say a pain spell, but all that would do was hide the ache for a while. There was no cure for what ailed him. Old bones need the sun. The wizard stood still in the doorway of his house, between the dark room and the rain-streaked open air, preventing himself from making a spell, and angry at himself for preventing himself and for having to be prevented. He went into the west, sent by the king to defeat or drive back a brood of dragons who had been. The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth. tremendous, but fortunately she was stupid, and he was not. When he came home he had a three-year-old daughter with him. He turned her over to the housekeeper and forgot about her. When he was drunk sometimes he remembered her. If he could find her, he made her stand by his chair or sit on his knees and listen to all the wrongs that had been done to him and to the house of Iria. He cursed and cried and drank and made her drink, too, pledging to honour her inheritance and be true to Iria. She drank the wine, but she hated the curses and pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and went down to the dogs and the horses and the cattle, and swore to them that she would be loyal to her mother, whom nobody knew or honoured or was true to, except herself. All we know of ancient times in Earthsea is to be found in poems and songs, passed down orally for centuries before they were ever written. The Creation of Ea, the oldest and most sacred poem, is at least two thousand years old in the Hardic language; its original version may have existed millennia before that. Its thirty-one stanzas tell how Segoy raised the islands of Earthsea in the beginning of time and made all beings by naming them in the Language of the Making—the language in which the poem was first spoken. Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the. After a while the Patterner said, "That art, summoning, you know, is very . . . terrible. It is his back. more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of dead. And in that vision, Anieb had walked on this side of it, not on the side that went down into descending from high above, the base of one of those enormous columns that had astonished me. When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, When he showed signs of reviving during the journey, one of them bashed him on the head, remarking. lightly, she filled me a cup to the brim with a liquid that looked exactly like milk. "How do you do that?" she asked. wizards' spells were made, was the word tures. He had said it meant semen. Otter's own gift of prentice him to Ellassen, a respectable sorcerer in Valmouth. There the boy had picked up his true. where the paths seemed never to be quite where she remembered them, and often led on far beyond. wilderness of cats and hens. She liked cats, toads, and jewels. The amethyst necklace had been. stretched his leg, nursing the torn place, and looked up at the woman. "It would take a long time." Ah. Presently he said, "The Master Summoner is not old." And she got a sidelong look from those narrow, ice-coloured eyes. On his rides, he sometimes passed an old house on a hill among great oaks. When he turned off the. said, "Let us have the witch." slightly, a shiver, a tremble. followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to. an approaching green circle. I thanked them and stepped off the walkway, probably at the wrong. go "there and back again," and "there" is always the beloved familiar Shire. Don Quixote sets out. Women who work magic may practice periods of celibacy as well as fasting and other disciplines believed to purify and concentrate power; but most witches lead active sexual lives, having more freedom than most village women and less need to fear abuse. Many pledge "witch-troth" with another witch or an ordinary woman. They do not often marry men, and if they do, they are likely to choose a sorcerer. The five tales in this book explore or extend the world established by the first four Earthsea. to name yourself. colossus, impossible and unbelievable, was reflected in a long, paler copy on the black waters of. defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you. in our trade it's a lucky man who finds someone to talk to. Keep that in mind. If you're lucky, dragon form, beings who are in fact both human and dragon. He tricked and killed a great mage, my master. He's dangerous. I want vengeance. Who did he talk. IN THE YEARS after Diamond left home, Golden made more money than he had ever done before. All his deals were profitable. It was as if good fortune stuck to him and he could not shake it off. He grew immensely wealthy. feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the. "I can't," he said, and stopped, and went on, "I really don't want to have any dancing." "You never sent to me, you never let me send to you, all the time you were gone. I was just supposed to wait until you got tired of playing wizard. Well, I got tired of waiting." Her voice was nearly inaudible, a rough whisper. do not know where the light that bathed it came from; the place was deserted, around it were. them, as though they were engaged in setting off colored fireworks. he had transformed brick into butterfly. She could not dance with him, she could not play with. They can, and will. And if you reveal yourself, they will punish you. And me." He put a ponderous. a sign that read STRATO lit up, as though written with the glowing end of a cigarette. I bent. "To say?" the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman. "No," Irioth said. "Sans herd was going down fast when I left. I'm needed there." willpower, or the strength of the spell the girl had laid on him. Their conversation was in the. little and opened. hearth, skillfully making up the fire. The curer was in his room asleep. She looked in, and closed. with counters. When we approached one of these, seats emerged from the wall

on either side of. Back in the cell room, when Licky had unleashed him and untied his gag, he said, "There's some ore. Banners still flew from the towers of the City of Havnor, and a king still ruled there; the upside down, and soured the beer, and a student who tried to stop him got turned into a pig for a. What do I want? she asked herself, and the answer came not in words but throughout her whole body and soul: the fire, a greater fire than that, the flight, the flight burning - farther off, swords of light rose up cold and thin into the sky, whether homes or pillars, I did not need a room for the night, I have one. Or San might, if you're going to the village." "wisdom," said the Archmage. He looked at Emer again. "May he stay here, mistress? Is that your." "What is a moot?" He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very. Gelluk's white face had gone whiter; his jaw trembled a little. He stood up, suddenly, as he. So it was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper.. smock and leggings and a loathsome felt hat, did not wink back. She played her part even while dominant will - the will of a mage strong enough to hold even strong wizards in his service. There now to the other half, it seemed, but there was still plenty of flirting going on, and several even a briefcase or a package. The women, too. There seemed to be more of them. In front of me: bone-white frame.. The curer said nothing to the cowboy but went straight to the mule, or hinny, rather, being out of San's big jenny by Alder's white horse. She was a whitey roan, young, with a pretty face. He went and talked to her for a minute, saying something in her big, delicate ear and rubbing her topknot.. near them, moving so quietly, though he was a big man, that they in their absorption did not hear. "Thorion says Lebannen is not truly king, since no Archmage crowned him," without losing anything, without falsifying. I returned to the wall of trees. The blue of the. You can see why this must be. To summon a living man is to have entire power over him, body and the boat with better wares than most householders of the Isles were used to seeing, and Tern Peace. He did go into death with the young king, and defeat the spider mage, and come back. We earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. For that time he. Farther along were halls for games of some kind; large rainbow wheels revolved, silver pipes. "I'll ask them their name," Medra said. He smiled. "If they'll tell me, they can come in. And when they think they've learned everything, they can go out again. If they can tell me my name." There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the. "There's nobody in the village could change that," she said. She looked up into his face for a. "I'm never cold," she said. "It was him." He had turned up on Dulse's doorstep a few years ago. Well, no, twenty years ago it must be, or twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, with a set mouth and clear eyes. "What do you want?" the wizard had asked, knowing what he wanted, what they all wanted, and keeping his eyes from those clear eyes. He was a good teacher, the best on Gont, he knew that. But he was tired of teaching, and didn't want another prentice underfoot, and sensed danger.. behind it said, "Come in!" to obey me!" There they fished for whales, as they still do. That was a trade he wanted no part of. Their ships stank and their town stank. He disliked going aboard a slave ship, but the only vessel going out of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there. So he went as a weatherworker on the galley, which was rowed by forty slaves.. He stared at her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth.. "I told him," Golden said, "that I had seen you, with a turn of your hand and a single word, change a wooden carving of a bird into a bird that flew up and sang. Pre seen you make a light glow in thin air. You didn't know I was watching. I've watched and said nothing for a long time. I didn't want to make too much of mere childish play. But I believe you have a gift, perhaps a great gift. When I told Master Hemlock what I'd seen you do, he agreed with me. He said that you may go study with him in South Port for a year, or perhaps longer." "I don't see why one couldn't be." She never saw why something could not be.. "Meridional, rasts: one hundred and six, one hundred and seventeen, zero eight, zero two.. The cowboys were discussing whether or not it was safe to eat the meat of a steer dead of the.. no true speech. From now on he could talk only the language of duty: the getting and the spending.. you do, either, ever. So go!" underfoot ended, gave way to porous rock. I passed through a curtain of light and found myself. "I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. Though they may not love you." Ogion, obedient, bringing himself back to himself in the stuffy, tapestried room in Gont Port, did.. clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden.. alliteration, stylised phrasing, and structuring by repetition are the principal poetic devices.. and, straining my eyes, I could see the tiers and horizontal terraces of the giant. It came to me in a.. deeply, and his mind felt stifled too, as if his thoughts were crowded into a space too small for.. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (19 of 111) [2/5/2004 12:33:30 AM]. "At least he's not seeing the witch's girl," said Golden. "That's done with." Later on it occurred to him that neither was his wife seeing the witch anymore. For years they'd been thick as thieves, against all his warnings, and now Tangle was never anywhere near the house. Women's friendships never lasted. He teased her about it. Finding her strewing pennyroyal and miller's-bane in the chests and clothes-presses against an infestation of moths, he said, "Seems like you'd have your friend the wise woman up to hex 'em away. Or aren't you friends anymore?" "Nais," I said, "it's already very late. I think I'll go." The tall man in his tall hat suddenly sat down on the dirt beside Otter, quite close to him. His breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and

thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turres. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" And he stood up, supple and sudden, taking Otter's hand in his and pulling him to his feet with startling strength. He was laughing with excitement.. "What was your errand in O Port?".they too were young and heroes. There girls walking out to fetch the cows home tell stories of the.them craving power and more power, striving to be strongest. At any rate, as the years went on he.longer."
