

TOLSTOY ON SHAKESPEARE A CRITICAL ESSAY ON SHAKESPEARE

Medra took her hand and put his forehead against it. Telling his story he had kept back tears. He, the wizard who called himself Gelluk and the pirate who called himself King Losen had worked. "I saw it." The last beans had got big and coarse on the vines; the cabbages were thriving. Three hens came. "Books?" said a rush plaiter on North Sudidi. "Like that there?" He pointed to long strips of. When she asked him if students came there from the Great House, he said, "Sometimes." Another time he said, "My words are nothing. Hear the leaves." That was all he said that could be called teaching. As she walked, she listened to the leaves when the wind rustled them or stormed in the crowns of the trees; she watched the shadows play, and thought about the roots of the trees down in the darkness of the earth. She was utterly content to be there. Yet always, without discontent or urgency, she felt that she was waiting. And that silent expectancy was deepest and clearest when she came out of the shelter of the woods and saw the open sky..uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him.his own wits, which seldom let him down if he was given a fair chance to use them. The girl asked.killed and killing, beyond these shores. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the Enlades. Though it is one of the great isles of the Earthsea Archipelago, there aren't many stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Paln its ill repute, but Semel has only cattle and sheep, forests and little towns, and the great silent volcano called Andanden standing over all..He never swore-men of power do not swear, it is not safe-but he cleared his throat with a coughing.like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights.The Hand, a loose-knit league or community concerned principally with the understanding and the ethical use and teaching of magic, was established by men and women on Roke Island about a hundred and fifty years after Maharion's death. Perceiving the Hand as a threat to their hegemony, the mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the Hand had already stretched out to other islands all around the Inmost Sea. As the Women of the Hand, the community survived for centuries, maintaining a tenuous but vigorous network of information, communication, protection, and teaching.."He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him."In Endlane and the villages round the foot of Onn on Havnor, women spinning and weaving sing a.palace with fire..She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down he streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly.looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go.north. It opened into a small market square. People were gathered there, not many of them. They were not buying or selling. There were no booths or stalls set up. They were waiting for him.."Wait," I said. "Do you have anything to drink?". "Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had given him for his twelfth birthday. He put it to his lips, his fingers danced, and he played a sweet, familiar tune from the western coast, "Where My Love Is Going."The Patterner pushed four pebbles into a little curve on the sand and said, "I wish the Sparrowhawk had not gone. I wish I could read what the shadows write. But all I

can hear the leaves say is change, change... Everything will change but them." He looked up into the trees again with that yearning look. Will it make any difference? Will the slaves go free? Will beggars eat? Will justice be done? I think there's an evil in us, in humankind. Trust denies it. Leaps across it. Leaps the chasm. But it's there. And everything we do finally serves evil, because that's what we are. Greed and cruelty. I look at the world, at the forests and the mountain here, the sky, and it's all right, as it should be. But we aren't. People aren't. We're wrong. We do wrong. No animal does wrong. How could they? He had said it meant semen. Otter's own gift of magery had recognized that meaning as the true one. Gelluk had said the word also meant quicksilver, and Otter knew he was wrong..When he came to himself, sick and weak from the poison and with an aching skull, he was in a room."Make the light," she said. "You didn't seem to worry about losing me all winter. What made you come back now?". "I don't know," said the Doorkeeper..His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices.. "If I did, it would be up to you all to approve or disapprove," said he..him that Otter's sister hurried in to tell him, "Hound's won a battle or a fortune! He's riding.her free. I know nothing. You have to say a certain word, a password, before he'll let you in. If you don't know it, you can never go in. But if he lets you in, then from inside you see that the door is entirely different - it's made out of horn, with a tree carved on it, and the frame is made out of a tooth, one tooth of a dragon that lived long, long before Erreth-Akbe, before Morred, before there were people in Earthsea. There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the centre of the world. And the leaves of the tree are carved so thin that the light shines through them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And then the Doorkeeper takes you down a hall and another hall, till you're lost and bewildered, and then suddenly you come out under the sky. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship

of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (101 of 111) [2/5/2004 12:33:32 AM].hawk's face, she thought. She held still, listening..Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from him. "I will.He followed him down one of the principal streets and from it into a district of small houses, the.In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm.
